Subject: XM Core Document Production

All,

At the Rule 26(f) conference on August 9, we indicated that we were still gathering information regarding the core documents and were not in a position at that time to propose a time line for that production. Based on our investigations since then regarding how XM employees keep their hard copy and electronic files, we anticipate producing core documents on a rolling basis and expect to complete our core document production by October 31, 2007.

Best,

Shannon S. McKinnon
